Experience

Dec 2024 - Mar 2025 · 6 mos Sofia

Software Developer Intern
Cost-Effective Solutions

In this role, I collaborated on a cloud platform using Python's Django framework and REST API, focusing on backend development and participating in weekly Scrums within an Agile framework. My duties included:

- Implementing CRUD endpoints for key services
- Creating tests for functionalities
- Using Docker for containerization and deployment
- Collaborating with the development team using Agile methodologies
- Maintaining and updating technical documentation

May 2024 - Nov 2024 6 mos Sofia

Customer Experience Specialist
Crypto.com

In this role, I simplified complex concepts while enhancing my soft skills. Key duties included:

- Diagnosing and resolving wallet-related technical issues
- Providing tailored troubleshooting support to users
- Maintaining patience and professionalism with complex issues
- Applying problem-solving and analytical skills for custom solutions
- Collaborating with the development team on platform improvements.
